

Plug-In Mechanical Timer

7-Day

GB

- 1) Socket
- 2) Timer Dial
- 3) Timer Segments
- 4) Function Switch
- 5) Plug
- 6) Power Indication Light

Specification

Power: 230V~
Frequency: 50Hz
Max load: 13A / 3120W

Electrical Safety

- Even when used as prescribed it is not possible to eliminate all residual risk factors. Use with caution. If you are at all unsure of the correct and safe manner in which to use this product, do not attempt to use it.

Unpacking

- Carefully unpack your timer. Ensure all packaging materials are removed and fully familiarise yourself with all features of the product.
- If any parts are damaged or missing, have these parts repaired or replaced before use.

Operating

1. To use the timer function, slide the Function Switch (4)  down so that the logo is visible.
2. Each black Timer Segment (3), surrounding the Timer Dial (2), represents 2 hours operating time.
3. Push in the black segments corresponding to the period of time during each day that you want the power to be ON. This 7 day cycle will repeat every week unless the timer is disconnected from the power.
4. Turn the Timer Dial (2) clockwise until the black arrow is pointing at the current time.
5. Connect the timer to the power socket and plug the appliance into the timer.
6. Ensure the switch to the mains power and the switch to the appliance is set to ON.
7. The Power Indication Light (6) will illuminate when the timer enters the 'working' mode.
8. To override the timer function slide the function switch  up to reveal the logo.

Maintenance

- When storing the timer for any prolonged period of time clean it with a soft, dry brush so that all debris is removed that could affect the timer function.

CE Declaration of Conformity

The undersigned: Mr Darrell Morris
as authorised by: Powermaster Tools
Declares that:

This declaration has been issued under the sole responsibility of the manufacturer. The object of the declaration is in conformity with the relevant Union harmonisation Legislation.

Identification code: 148232

Description: Plug-In Mechanical Timer

Conforms to the following directives and standards:

- Low Voltage Directive 2014/35/EU
- RoHS Directive 2011/65/EU
- EN60730-1:2000+A12:2003+A1:2004+A13:2004+A14:2005+A16:2007+A2:2008
- EN60730-2-7:2010
- BS5733:2010+A1:2014

Notified body: Intertek

The technical documentation is kept by: Powermaster Tools

Date: 23/11/2016
