

Shaver Adaptor

1A 240V

GB

Important Safety Instructions

When using this Shaver Adaptor, be sure to adhere to all basic safety precautions including the following:

Safety Precautions

- THIS PRODUCT DOES NOT CONVERT VOLTAGE and is not suitable for equipment operating on 110V
- Do not use with an appliance rated to draw more than 1Amp
- Ensure the appliance you are plugging into this adaptor operates on 220-240V. If your equipment does not operate on 240V, an additional voltage converter may be required

Note: See the label on the back of an appliance to identify its power requirements.

- Always attach the adaptor to the appliance first, then plug it into the mains socket
- Disconnect the adaptor from the mains socket when not in use
- Always be sure the rated voltage of the appliance is compatible with the mains socket you intend to use
- The adaptor must be fully inserted into the socket. Never use the adaptor if the pins are exposed
- Never touch any metal part of the adaptor when in use
- This adaptor is designed for indoor use only
- If the adaptor develops a crack, breaks, becomes deformed or a pin is loose, do not use it
- Never force an appliance into the adaptor or the adaptor into a socket
- ONLY connect earthed appliances when there is an earth connection between Shaver Adaptor and mains socket

Changing the fuse

- ALWAYS use a 1Amp fuse for this product
- Remove plug from any socket or appliance
- Using a slotted screwdriver (not supplied) lever the fuse housing from the plug
- Slide the fuse out of the fuse housing
- Insert new fuse
- Push the fuse housing securely back into the plug

Applications

- This adaptor can be used to connect an electrical shaver or toothbrush or other non-earthed appliances to a UK only 3-pin socket, with a maximum draw of 1Amp
