

Triton's Systainer® is a highly versatile storage system that offers a tough, flexible and convenient method of organising, storing and transporting all your tools and workshop equipment. Made from high-quality ABS for maximum durability and long service-life, Systainer® is available in five sizes to suit almost every requirement at home, on-site or in the workshop. Each unit boasts a T-LOC latch system, which allows Systainer® to be locked, opened and connected using just one hand. Multiple units can be locked and stacked together to form one unit for optimum handling.

T-LOC Latch System

opens the lid & connects units together

LOCK

OPEN

CONNECT

Product Label Slots

for easy location of tools & accessories

Single-Hand Operation

to lock, open & connect units

Open When Connected

without dismantling the units

Stack & Lock Units

for highly organised work storage

Carry Handle

folds away for portability

ABS Polymer Construction

for increased durability & long-life
