

Quick installation of any Triton Router is easy with the Precision Router Table System. Featuring slots on the mounting plates and including quality, heavy duty fittings, almost any 1/4" or 1/2" Router can be installed. By adding other accessories, the system will perform jigsaw cutting, biscuit jointing and finger jointing. Fitting the Triton Router Table to the Triton Workcentre or Router Stand adds a whole new dimension to woodworking, allowing shaping, planing, rebating, trenching, moulding and grooving. Whatever the job, the Triton Router Table offers remarkable accuracy, exceptional versatility and enhanced safety for top results every time.
