SPECIFICATIONS

Input Power:	1200 W
No Load Speed:	10000 RPM
Biscuit Sizes:	0, 10, 20 #
Cutting Depth:	8, 10.5, 12, 13.5mm
Tool Weight:	3.7Kg

FEATURES

Magnesium Construction:	For superior strength, lighter weight
Powerful 1200 Watt Motor With 10000 RPM:	Provides the power and speed to cut into the hardest wood
Adjustable Fence With 0-90 Degrees Tilt Adjustment:	Provides ease of use and greater versatility allowing slots to be cut on a bevelled edge
Adjustable Fence Height From 0-35mm:	Provides a stable and accurate surface allowing the placing of matching slots in the workpiece
Preset Depth Stops at 0, 10, 20 & Max:	For quick and easy adjustment to common biscuit sizes
Anti Slip Rubber Grips:	Prevent the workpiece from moving or lifting during slot cutting
Full Rubber Grip Overmould Handle:	Provides extensive rubber grip area for a more positive grip, reduced vibration and greater comfort and control
Unique Slim Handle Design:	Improves user comfort and provides greater control
Adjustable Front Handle:	Allows the handle to be positioned to suit the operator and application for more flexible operation
Compatible With 0, 10, and 20 Size Biscuits:	For greater versatility in all applications, maximum settings allows oversized slots to be cut
Spindle Lock Button:	Allows quick and easy blade change
Lock-on Switch:	Allows continuous operation without the need to keep the trigger switch depressed
Built in Dust Extraction With Dust Bag:	For a cleaner and safer working environment
Includes Kitbox:	For convenient storage and easy transportation
