

PRODUCT SPECIFICATION SHEET

200W PAINT SCRAPER | DEC008SC

FEATURES

No chemicals required:	means it's an environmentally friendly method of paint removal
In-built vibration damping system:	means improved comfort and reduce user fatigue
Quick and easy to use:	this unique tool removes paint and varnish up to 70% faster than other methods
Includes 4 blades:	giving this tool the ability to be used to cut flat surfaces, perpendicular surfaces, or both simultaneously
Variable speed settings between 6500 and 9000 blows per minute:	allows the speed of the tool to be changed depending on the surface and the application
2mm stroke length:	provides optimal stroke length to tackle a range of different applications in a timely manner
Blade locking switch:	securely locks the blade in place as it pounds away at the paint

STANDARD EQUIPMENT

4 x cutting blades
Kitbox
