## 1800W 305MM (12") DOUBLE BEVEL SLIDE COMPOUND MITRE SAW WITH LASER LINE | DB305SMS

### SPECIFICATIONS

<b>Input Power:</b>	1800 W
<b>No Load Speed:</b>	5000 RPM
<b>Blade Size:</b>	305 mm
<b>Bore Size:</b>	30 mm
<b>Blade Teeth:</b>	30 TCT
<b>Spindle Lock:</b>	Yes
<b>Straight Cut at 90°:</b>	305 x 95 mm
<b>Mitre Cut at 90° x 45°:</b>	215 x 95 mm
<b>Bevel Cut at 45° x 90°:</b>	305 x 52 mm
<b>Compound Mitre Cut at 45° x 45°:</b>	215 x 42 mm
<b>Tool Weight:</b>	25.7Kg

### FEATURES

<b>Laser Line Generator:</b>	For improved operator cutting vision, accuracy of cut, faster set-up and increased safety of operation
<b>Dual Laser Line:</b>	Allows fast, accurate setting to both sides of the saw blade ensuring greater visibility of the cutting line
<b>Bevel cuts from 0° to 45° Left and Right:</b>	For improved productivity, increased accuracy and greater convenience
<b>Extra powerful 1800W motor:</b>	The power to handle tough timbers and severe cutting tasks
<b>305mm Blade:</b>	Provides a large cutting capacity for improved versatility
<b>Mitre cuts 0° to 45° Left and Right:</b>	Allows a full range of mitre cuts
<b>Positive Mitre Table Stops:</b>	For fast and convenient setting of common mitre cuts
<b>Strong, Robust Alloy Construction:</b>	For greater strength and durability
<b>D-handle Design with Rubber Grip:</b>	For improved ergonomics and greater comfort
<b>Adjustable Depth of Cut:</b>	Permits trench cutting for greater versatility
<b>Spindle Lock Button:</b>	Allows easy, one wrench blade changes
<b>Dust Extraction Port:</b>	For a cleaner and safer working environment
<b>Lock Down Facility:</b>	For portability and ease of storage
<b>Carbide Tipped Saw Blade:</b>	Stays sharper longer for an extended service life

### STANDARD EQUIPMENT

Workpiece clamp
Side support arms
Dust bag
Blade wrench
