

REFINA

- contra rotating paddles
- outer scraper paddle to turn & fold the mix
- faster inner paddle for intensive mixing
- mobile for site use
- robust high torque two speed motor
- thermal cut-out & motor overload
- fully enclosed dust cover
- vacuum outlet for dust control

twinmix 1800
mobile mixer with tub trolley
453066

TwinMix
Power 1800w
Speed 1 outer/inner paddle 20/250rpm
Speed 2 outer/inner paddle 36/450rpm
Machine weight 70kg
Capacity 50kg
Noise level 67dBA
Voltage 110v or 230v

The TwinMix is a robust universal high powered motor mobile mixer with mix trolley and 65 ltr tub

The contra rotating mixer paddles with scraper, avoids material deposits on the bucket sides rim, while the fast inner paddle ensures thorough mixing

The standard trolley with handles and large wheel is for transporting the mix around site

The tipper trolley uses a simple mechanism to unload the mix

The mixer will run off 110v construction site electrics using a 32 amp 5kva transformer or 6kva generator
