

No.1 in telescopic work tools

LOFT LINE

The easy way to your loft.

THE EASY WAY TO YOUR LOFT

Loft Line is a standalone product, assembled in your existing loft framework.

When we developed the new Loft Line our ambition was to create a safer ladder, easier to install and even straightforward to use. This is the worlds best telescoping Loft ladder in any aspects.

SAFETY FEATURES

When it comes to creating ladders, safety is our top priority and Loft Line is no exception. Loft Line is equipped with the same safety features as all our ladders, including safety tabs, wide and level steps, angled rubber feet and safe opening with our unique break technology.

Also, Loft Line is now produced with our patented triangular tube, making it stronger and even more impact resistant. The triangular shape also creates the perfect grip for your hand when climbing up and down the ladder.

EASIER TO USE

Loft Line is extremely easy to use, just lift it off the frame and pull the ladder out in its fully open position. When you are done, it is just as easy to fold since it is equipped with Autostep®. Just push the two buttons on the bottom rung and the ladder will easily unlock itself while you push and hook it on.

INSTALL WITH EASE

We have also updated how to install the ladder, making it easier with new features like top buttons on the MAXI for extending the top tubes. Of course you are getting assembly guidance from our updated assembly instruction

IT'S ALL IN THE DETAILS

A ladder is a ladder they say. But we know that it is the small details that makes the big difference.

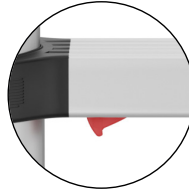

ADJUSTABLE HEIGHT

Loft Maxi is designed with a flexible height adjustment to obtain a safe leaning angle.

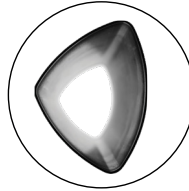

SAFE LOCKING

Red indicator tabs to ensure your safety every time.

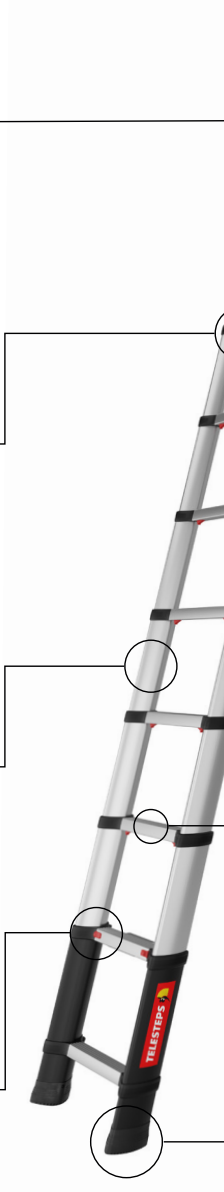

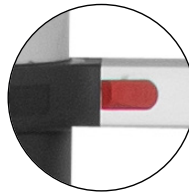

TRIANGULAR DESIGN

Grip-friendly design that is twist and flex resistant by nature.

SMART & SAFE UNLOCKING

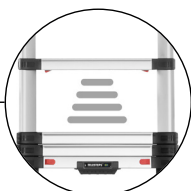

2 push buttons for closing the ladder. Autostep® - Automatic unlocking system when closing the ladder.

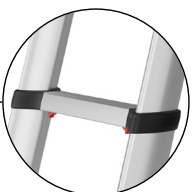

FLEXIBLE SOLUTION

Loft Line is a standalone product, assembled in your existing framework.

SAFE OPENING SYSTEM

Breaksystem to create a smooth and controlled opening.

SAFE & ERGONOMIC RUNGS

Wide and level rungs with grooved channels to minimize slipping.

ANGELED RUBBER FEET

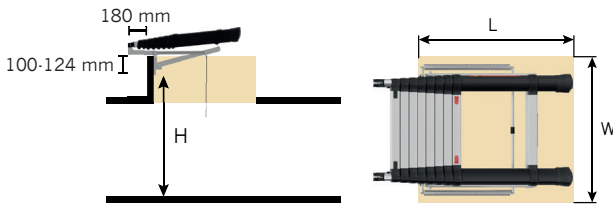

Maximizing Surface Contact to the floor.

TWO MODELS

Our Loft Line is available in two different models, Mini and Maxi.

MINI

	MINI 9
Art. no.	72324-541
No. of treads	9
Tread width	40 mm
Weight	15,3 kg

	MINI 9	
H (mm)	W (mm)	L (mm)
2250 - 2450	520	600

H = Floor to bottom of ladder support
W/L = Minimum inside measurement
Hatch not included

MAXI

MAXI 10	
Art. no.	72527-541
No. of treads	10
Tread width	40 mm
Weight	16,6 kg

MAXI 10		
H (mm)	W (mm)	L (mm)
2800 - 2950	520	1 100
2650 - 2800	520	1 000
2550 - 2650	520	920
2350 - 2550		
2250 - 2350		

H = Floor to bottom of ladder support

W/L = Minimum inside measurement

Hatch not included

Many years ago we created an icon in the world of ladders and today we are recognized as the world leader in telescopic work tools. With our R&D and world class production based in Sweden, our brand and products are renowned for its quality and design by our users worldwide, ensuring we always put safety and quality first.
