

# ADJUSTABLE TRIPOD LADDER

## FULLY TELESCOPIC DESIGN

Legs adjust in height for a stable setup on uneven ground, slopes, steps or stairwells

## DESIGNED FOR PROFESSIONALS WHO NEED RELIABLE STABILITY ON UNEVEN OR SOFT GROUND

Extra-wide standing step for a comfortable and stable position to work from

Spiked feet for secure grip on soft terrain

Removable rubber boots to protect hard or delicate surfaces when fitted

**150kg**  
MAX. LOAD  
(Load includes user, tools, materials, etc.)

- Tripod design makes it easier to work in tight spots – ideal for pruning, hedge cutting and tree work
- Welded aluminium construction provides long-term durability

## SPECIFICATIONS

Product Code	No. of Treads	Max. Standing Height	Safe Working Height*	Weight
92505	5	1.42 (4'8")	3.17 (10'5")	9.4 kg
92507	7	1.97 (6'6")	3.72 (12'2")	12.7kg
92509	9	2.54 (8'4")	4.29 (14'1")	15.8kg
92511	11	3.1 (10'2")	4.85 (15'11")	18.3kg

\*Based on 1.75m (5'9") as the average reach height of a person.

High handrail provides extra support during work

Sanding Step for a comfortable and stable position to work from

Deep, slip-resistant double-rung treads offer secure footing in wet or muddy conditions
