AS200X ALLSAW

110/240V

SKU

ARM-00100 for 110v / ARM-00101 for 240v

Product Description

The next generation ALLSAW AS200X provides unmatched cutting capability for today's masonry and heritage restoration projects. With improved ergonomics, a powerful 1500W motor and the all-new Quick Switch Blade system, the AS200X is ready to renovate. The advanced dust control and nonkickback cutting action offer industry professionals a safe and precise option in challenging restoration environments.

Available in 110 volt and 240 volt models.

With seven different blade geometries, the AS200X Quick Switch Blades offer deep precision cutting with minimal overcutting. With its unique dual blade cutting action, these versatile AS200X blades can make cuts that other tools cannot. Cutting deep and square, tuckpointing, removing a single brick, tothing out for extensions or cutting aged masonry, the AS200X is an essential masonry tool for the 21st century renovation professional.

Product Features

All-New Quick Switch Blade System makes switching up blades easy for improved on-site productivity.

Improved Flex Grip Handle with adjustable rubber grip for better handling and flexibility when cutting brick and mortar.

Superior dust reduction and collection when fitted with the flexible, heavy duty dust boot uniquely engineered for the AS200X.

Dual Blade 5100 rpm technology for deep, square and safe precision cutting action ranging from 35mm to 170mm deep.

All-New AS200X Quick Switch Blades for various applications.
