

GUBE

Cross Line Laser

featuring bright Horizontal and Vertical Laser beams

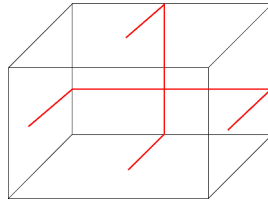

A fully automatic levelling Laser Level that is lightweight and portable, featuring a manual beam lock for slope lines.

CUBE

The Datum Cube Laser Level is a powerful, compact and lightweight automatic levelling line Laser that provide bright Horizontal and Vertical Laser lines suitable for a variety of levelling and alignment work. The Cube Laser also features a beam lock switch to enable the Laser to be used to provide sloped lines if required.

Available in three packs, the Datum cube can be ordered as just the Laser, as the Laser plus a multi adjustable ball mounting bracket, or complete with a height adjustable lightweight tripod that features a tilt head assembly.
