

DUSTBLOCKER 650

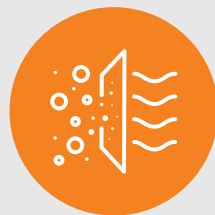

AIR CLEANERS FOR CONSTRUCTION, TRADE AND HIRE INDUSTRY.

The new MAXVAC Dustblocker DB650 is a completely unique dual voltage air scrubber that has been developed to remove the unseen dust in an area of work. The first recommendation is to collect dust at source but not every particle of dust can be captured. This is where the Dustblocker DB650 comes into play; filtering 650m³/hr this is ideal for use in areas up to 215m³ volume.

Code: MV-DB650

SPECIFICATION

Voltage	Dual Voltage 110/230 V
Power	45 - 180 W
Air flow inc filters	350 - 650 m ³ /hr
Speed control	Stepless adjustable
Filter type	G3 / G4 / HEPA14-Carbon
Warranty	2 years
Noise Level	54 - 67 dB(A)
Weight	13 kg
Dimensions	380 x 360 x 375 mm
Options	HEPA H13 100 mm Carbon 100 mm
