

## Combi Drill LXT®

### DHP492

18V

**A powerful, brushless general-use impact drill for screwdriving and drilling**

An efficient, brushless drill for screwdriving and drilling. A powerful max. torque of 141Nm. The main feature and benefits are: Redesigned speed change mechanism to avoid gear disengagement, Controller protection has been revised to enhance the protection for electronic components during variable speed control by the trigger.

#### Technical specifications

|                                            |                                    |
|--------------------------------------------|------------------------------------|
| Nominal Battery Voltage                    | 18 V                               |
| Voltage LXT                                | ✓                                  |
| Battery Chemistry (Ni-Cd / Ni-MH / Li-ion) | Li-ion                             |
| Brushless Motor                            | ✓                                  |
| No load speed                              | 0 - 550 / 2100 min <sup>-1</sup>   |
| Max. fastening torque Hard/Soft            | 130 / 65 Nm                        |
| Max Torque                                 | 141 Nm                             |
| Torque setting                             | 21                                 |
| Impacts per Minute (IPM)                   | 0 - 8250 / 31500 min <sup>-1</sup> |
| Max. Drilling Diameter in Masonry          | 16 mm                              |
| Max. Drilling Diameter in Steel            | 13 mm                              |
| Drilling Capacity Wood (Auger Bit)         | 50 mm                              |
| Drilling Capacity Wood (Self-feed bit)     | 76 mm                              |
| Drilling Capacity Flat bit                 | 40 mm                              |
| Drilling Capacity Hole Saw                 | 152 mm                             |
| Driving Shank                              | 1/2"-20UNF "                       |

#### User benefits

- Highly efficient and compact machine for professional use
- LED light illuminates the work site
- Battery protection system automatically shuts off power when the battery level is low
- Electronic overload protection protects the user and the device
- Keyless chuck for easy bit installation and removal
- Compact and lightweight for reduced operator fatigue
- Electric brake for maximum productivity and increased operator safety
