

DEFENDER STEP UP TRANSFORMERS

PART NUMBER: E203030

DEFENDER—3.3kVA STEP UP TRANSFORMER

The Defender 3.3kVA Power Tool Transformer is a portable, tough, single-phase power transformer ideal for use on construction sites, event use etc. It has dual amperage outputs converting 110V to 230V.

This transformer comes complete with carrying handles and is manufactured to BS 61558-2-23.

SPECIFICATIONS & TECHNICAL DATA

VOLTAGE INPUT	110V~
VOLTAGE OUTPUT	230V~
CURRENT	16A
POWER RATING	3.3Kva (3000VA)
CONTINUOUS RATING	1.65Kva (1650va)
MAX. TOOL WATTAGE USE	1650W
FREQUENCY	50Hz
CONSTRUCTION	GRP
PLUG	Defender 110V 16A Plug
CABLE	2M 3G 1.5mm ² HO7 RN-F
PANEL SOCKET	2 x Defender 230V 16A
THERMAL CUT-OUT	10A
IP RATING	IP44
SIZE (LxWxH)	190 x 240 x 260 mm
WEIGHT	18.6kg

DEFENDER EVOLUTION—NEXT GENERATION SITE PRODUCTS

The most innovative site power & lighting equipment in the construction industry. Award-winning designs deliver clever features that increase versatility and improve site safety. Built tough to withstand harsh site conditions Evolution products meet the demanding needs of today's professional tradesmen.
