22M festoon string of 10 LED modules with fixing holes for installation

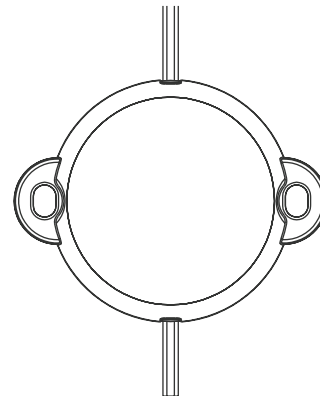

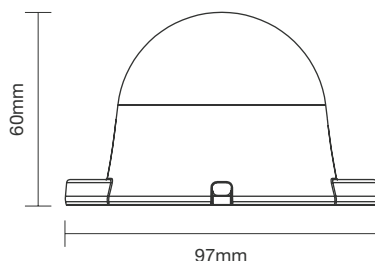

110V
16A · IP44

OVERVIEW

The LED Module Festoon is designed to give an unique combination of great light output, low running costs, and robust construction. Ultrasonically sealed modules eliminate the unscrewing of the lens which sets this product apart from the more traditional festoons, whilst built-in mounting points remove the need for ceiling hooks or poles.

SPECIFICATION

Product
• Part Number - E89816
• Product Dimensions -
  97 x 60mm (LxH)
• Product Weight - 2.15KG
• Body Material - PC
• Energy Rating - Erp A+
• Product Colour - Yellow
• Frequency - 50Hz
• Operating Temp - -20º ~ 40º

Packaging
• Packaging Dimensions -
  250 x 265 x 305mm (LxWxH)
• Packaging Weight - 2.4KG
• Packaging Bar Code - 5056122013089
• Packaging - Full Colour

Shipping
• Packaging Dimensions -
  520 x 265 x 305mm (LxWxH)
• Carton Weight - 10.32KG
• Carton Bar Code - 15056122013260
• Quanitity Per Carton - 4pcs

Power
• Wattage Output - 50W
• Voltage - 110V
• IP Rating - IP44
• Amps - 16A
• Electrical Class - Class II

Lamp
• Light Output - 4000 Lumens
• LEDs - 10x 5W LED modules
• Colour Temp - 6500K (Bright White)
• Beam Length - max 18M
• Light Spread - 180º
• Lens Material - PC

Plugs & Cables
• Plug Type - 16A CEE Plug
• Cable Type - H05VVH2-F 2G x 75mm²
• Cable Length - 3M then 2M spacing between
  10 LED light modules

OTHER THINGS YOU MAY WANT TO KNOW

Handing Hooks
• Part Number - E86330
• Available in packs of 10
• Multiple hooks for festoon cables
• Material - ABS Construction
• Fixing/hanging points
