Renovation machines

LD 15-10 125, Kit Turbo-Jet

Order no. 405.914

Technical attributes	LD 15-10 125, Kit Turbo-Jet
Disc Ø	125 mm
No load speed	10000 rpm
Power input	1450 watt
Power output	950 watt
Vibration	< 6,4 m/s ²
Tool fixture	M 14
Weight	3,2 kg

Standard equipment	
1 Turbo-Jet grinding disc	348.899
1 extraction hood with rubber extraction ring	
1 handle	
3 cable clips	
1 hexagon socket wrench, SW 4	
1 extraction adapter SAD-C D25-32 AS	320.188
1 pin wrench	
1 carrying case L-BOXX® 238	414.093
1 case insert	

Compact renovation grinder for dust-free grinding, 125 mm

- Electronic control: with tachogenerator constant speed control, soft start, overload protection and temperature monitoring
- Dust extraction: prevents dust nuisance, reduces disc wear, keeps the concrete pores open for the new coating
- Reliable 1450 watt high-performance motor with sufficient power reserves
- Flexible rubber vacuum ring with low-wear metal ring: moves smoothly over the surface and protects against dust and flying stones
- Extraction hood: with stepless height adjustment
- With steplessly adjustable, vibration-proof, ergonomic auxiliary handle, for optimum handling and machine control
- For fixed hose connection. Adapter with FLEX Clip connection for Ø 32 mm snap connection included in the standard equipment.
- Recessed spindle lock, to avoid unintentional activation
- Ideally suited for processing walls, ceilings and floors. Efficient and economic working thanks to optimum coordination between machine and sanding disc
- Turbo-Jet grinding disc with optimum removal rate. The wide range of diamond segments provides a considerably quieter operating performance and a more attractive sanding pattern. Ideal for surface grinding on mineral substrates.
