

EVACUATOR

ABOUT THE SYNERGY-RF

Our Synergy-RF range of temporary wireless alarms offers a simple and cost effective solution for smaller projects allowing up to 40 mixed devices to be paired wirelessly together via a mesh network. Devices within the Synergy-RF system consist of Base Stations, Call Points, Auto Detection, Sounder Strobes, Relay units, and GSM Dialers. Our Synergy-RF System has the unique ability to offer all devices (Apart from GSM) as a battery only set up. So no Mains power, no problem.
