

# RHINO

HEATING, COOLING & DRYING SOLUTIONS

## RHINO FUME EXTRACTOR

The Rhino Fume Extractor is a heavy-duty 3-in-1-air movement system that cools, ventilates and extracts air in both restricted and open environments. Ideal for removing steam and even pungent smells from inaccessible areas. It eliminates large volumes of contaminated air quickly through durable non-collapsible ducting.

Ducting- 305mm D x 5M L. Comes complete with carry-all.
