

G4D

4 X 360° LASER

G4D | 4D Multi-line Green Beam Laser

The G4D is a high-precision green beam laser designed for reliable levelling and alignment across a wide range of applications. With clear, crisp lines and a durable build, it's a practical choice for both trades and serious DIYers.

Powered by a USB-C rechargeable battery, the G4D offers up to 18 hours of runtime and features three adjustable brightness levels to suit different lighting conditions. The pulse mode allows for use with compatible laser detectors, helping maintain visibility over longer distances or in brighter environments.

Built to IP54 standards, it offers resistance against dust and splashes, and provides accuracy to 3mm over 10 metres.

Key features:

- Green beam multi-line laser
- Metal glass housings
- USB-C rechargeable with up to 18 hours runtime
- Pulse function and 3-stage brightness adjustment
- IP54 rated for dust and splash protection
- Accuracy: 3mm over 10m
- Supplied with magnetic bracket, USB-C charging cable and carry case
