G60 ROTARY LASER KIT

G60 | Red Beam Rotary Laser Kit inc Tripod, Staff and Receiver

The G60 Rotary Red Beam Laser Kit is a dependable choice for trades who need consistent accuracy across longer distances. With a working range of up to 400 metres when used with the supplied receiver, the G60 is suitable for a wide variety of uses, both indoors and out.

Accurate to 3mm over 30 metres, this red beam rotary laser provides reliable performance for jobs that demand precision. The included dual-sided receiver helps pick up the beam quickly and clearly, even in challenging lighting conditions.

Each kit comes complete with an aluminium tripod and a 2-metre metric staff, giving you the core tools you need to get set up straight out of the case. Everything is stored securely in a durable hard carry case for easy transport and protection on site.

Key features:

- Red beam rotary laser
- Working range up to 400m with receiver
- Accuracy: 3mm over 30m
- Dual-sided receiver for improved visibility
- Supplied with aluminium tripod, receiver, 2m metric staff & hard carry case
