

# LIQUID SCREED

Everything you need for liquid screed!

DAPPLE BARS

CONCRETE SPRAYERS

FLOW CONE

FLOW TEST MAT

LEVELLING TRI-PODS

PORTAMIX™

Liquid screed is the modern alternative to conventional Sand and Cement screed.

It is now widely used in the construction of domestic and commercial buildings and was developed to deliver a level and smooth surface onto which the chosen floor finish can be laid – tiles, wood, laminate etc.

Liquid screed lends itself especially well for use with under floor heating.

## SOMETHING ELSE?

MBW also stock a range of powered vibratory screeds. A choice of petrol or battery powered.

MBW also supply pedestrian walk-behind and ride-on power trowels.

## DAPPLE BARS

ITEM NO	DESCRIPTION
DAPPLE0.9	0.9M ALUMINIUM DAPPLE BAR
DAPPLE2M	2M STEEL DAPPLE BAR
DAPPLE2M-A	2M ALUMINIUM DAPPLE BAR
DAPPLE3M	3M ALUMINIUM DAPPLE BAR
DAPPLE_SET	0.9, 2M & 3M ALUMINIUM DAPPLE BAR

The dapple bar is made for smoothing and removing bubbles from liquid screed, self-levelling concrete, and used for screed containing polyester beads.

## LEVELLING TRI-PODS

ITEM NO	DESCRIPTION
MBW/SCREEDPOD	STAINLESS STEEL LEVELLING TRI-POD

Screed Tri-pods are made from a unique, no-corrode fully stainless steel and are ideal for levelling liquid screed and self-compacting concrete. \*Supplied in boxes of 20.

## SPRAYERS

ITEM NO	DESCRIPTION
MBW/1949	INDUSTRIAL CONCRETE SPRAYER 13.2 LTR
MBW/79500	EURO STYLE BACKPACK CONCRETE SPRAYER 15 LTR

High-quality commercial pressure sprayers with Viton seals and gaskets for a variety of industrial chemical applications.

Tri-pod tank on industrial sprayer for triple protection against rust, corrosion and denting, holds 13.2 Ltr. Pro series Euro style has a translucent poly tank holding 15Ltr.

## FLOW TEST PLATE

ITEM NO	DESCRIPTION
MBW/FLOWPLATE	STAINLESS STEEL FLOW PLATE

400 X 400 X 2mm thick robust stainless steel flow plate with rounded edges for safe use. Use in conjunction with the stainless steel liquid screed cone to measure the slump of the concrete.

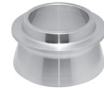

## PORTAMIX™

ITEM NO	DESCRIPTION
MBW/PMH-KIT	PORTAMIX™ MEGA HIPPO CART MIXER
MBW/PMK-KIT	PORTAMIX™ PELICAN CART

The fastest way to mix and pour flooring compounds consistently, Portamix™ Mega Hippo Gen-2 has a well balanced design that allows one person to mix, transport and pour with ease and precision, reducing downtime and material waste.

The Pelican is the ultimate transport cart that compliments the Portamix Mega Hippo, taking you to the next level of performance. Keep the Mega Hippo mixing, pour into the Pelican and transport to the work zone.

## LIQUID SCREED CONE

ITEM NO	DESCRIPTION
MBW/FLOWCONE	STAINLESS STEEL FLOW CONE

Robust and heavyweight stainless steel flow cone, specifically designed & manufactured for use with liquid flowing screeds in accordance with BS8204-7. Use in conjunction with flow test plate.
