

DUSTBLOCKER 450

AIR CLEANERS FOR THE HOME OWNER, TRADE AND HIRE INDUSTRY.

The MAXVAC Dustblocker DB450 has been designed for use in the Bathroom and Kitchen fit-out industry. It features a removable exhaust duct that can be connected into either a soil stack or vent pipe to create a negative pressure in the area of work to maximize dust reduction effects. Filtering 450m³/hr this is ideal for use in areas with up to 150m³ volume.

Code: MV-DB450
