

MEDI 4e

AIR PURIFIER WITH UV-C VIRUS STERILIZER

AIR PURIFIERS FOR DOMESTIC & OFFICE SPACES

MAXVAC Air Purifiers are well proven high performance air cleaners that use advanced HEPA filtration to remove 99.95% of airborne dust. The MEDI range incorporates proven UV-C (Ultra Violet) Sterilisation Technology to kill or inactivate bacteria by disrupting their DNA to help prevent the spread of infectious diseases and viruses. These units are entirely safe for use in occupied areas as all UV-C rays are completely concealed.

Perfect for the home, small office or surgery, the Medi 4e is a truly elegant high performance design with intelligent sensors & remote control. The Medi 4e is a powerful compact unit with HEPA & Carbon Filters, UVC and a host of additional features.

Advanced touch control, digital display for Temp, Humidity, PM2.5 count, mode, Cartridge filter, & Air Quality monitoring, 3 speed plus intelligent Automatic speed function, timer & sleep modes.

These powerful air cleaners are designed to run 24 / 7 to purify the

air and create a healthy living environment, but they do not displace the need for essential sanitising and disinfecting of surfaces.

HEPA Filter

The HEPA 13 filter removes up to 99.95% of microparticles larger than 0.03 µm.

Carbon Filter

The carbon filter remove pollutants, VOCs and unpleasant odors from the air. These are gaseous substances that mechanical filters G4 and HEPA filters cannot remove.

UV-C Sterilizer

Powerful 100% concealed ozone-free UV-C lamps deliver killer rays to destroy viruses & bacteria by disrupting their DNA and help prevent the spread of virus and infectious diseases, but does not replace the need to take other precautions.

Advantages of the MEDI 4e:

- ✓ Purifies and disinfects the air up to 99.99%
- ✓ Destroys bacteria and virus DNA
- ✓ Intelligent filter monitoring
- ✓ Remote Control
- ✓ Reduces spread of bacteria & viruses
- ✓ Helps prevent spread of germs
- ✓ Positive effect on your health
- ✓ Inhalation allergies can disappear
- ✓ 100% Safe use of UV-C as ISO 15858
- ✓ Compact high performance mobile units
- ✓ Filters are tested to: ISO 16890 -1:2016 / EN1822-1:2019

What can the MEDI 4e filter out of the air?

- ✓ Bacteria and viruses
- ✓ Dust mite
- ✓ Mold spores
- ✓ Pollen
- ✓ Dust and fine dust
- ✓ Smoke and other odours

Low noise level

MEDI 4e has variable speed and operates at a low noise level, making them particularly suitable for areas such as homes, offices where low noise levels are of at a premium.

Advantages of the air circulation system:

- ✓ Maximizing system efficiency
- ✓ Longer fan life
- ✓ Provides healthier air to breathe.
- ✓ 24/7 Operation
- ✓ Helps Maintain room temperatures

REMOVES MICRO-ORGANISMS

Easy use control panel

Easy Change Filters

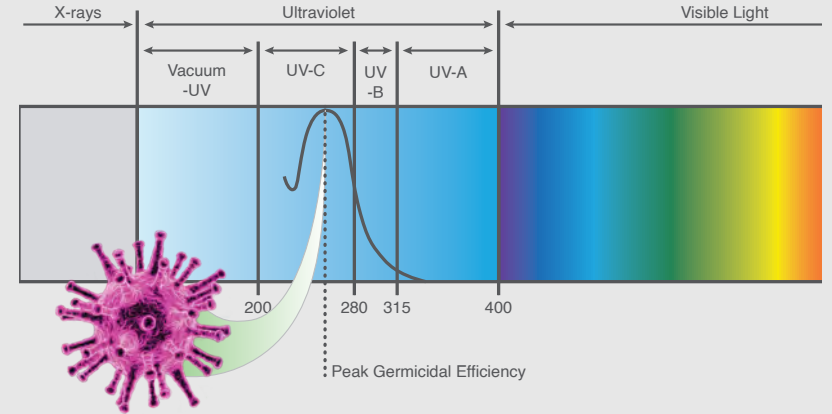

POWERFUL UV-C STERILISER

100% Concealed UV-C lamps

Advanced Germicidal Technology

FEATURES CLASS LEADING MAXVAC TECHNOLOGY

SPECIFICATIONS

	MEDI 4e
MAXVAC Code	MV-DBM4E
Voltage	230V
Total Power	80W
Filter type	G3 HEPA H13 Activated Carbon UV-C
Lifetime UV-C	8'000h
Max Air Flow incl. Filters	120-200m ³ /h
Recommended Room Size	24 - 40m ³
Noise Level dB(A)	15 - 55
Weight	8.5 kg
Dimensions (mm)	425 x 220 x 630 mm
