# MIXZR

**Robust high quality British design for the Hire and Construction Industries**

**Petrol or Electric**

Impact resistant cover with on-site mixing hints decal.

Unique paddle design enhances mixing performance.  
Drum angle enables easier loading and faster discharge.  
Drum design minimises splash out.

Convenient tilt lock. Prevents accidental tipping and aids stand assembly.

Extra benefits from the large, tubular rear frame :

- Acts as "hold anywhere" handle, preventing overreaching when tipping.
- Enables easy, steady and controlled tipping.
- Gives extra physical motor protection on-site and during transport.
- Makes a very stable base for use off the stand.

4 Leg stand with simple and speedy "click fit" assembly.

Power source	230v or 115v	Honda or Loncin Petrol
Power (HP / kW)	0.5 / 0.37 kW	4.0 / 2.9
Total drum vol. (Litres)		134
