

PRODUCT CODE: PAF-0052

PRODUCT NAME: CleanSpace™ Combined Filter TM3 ABEK1 P SL R

Description The CleanSpace Combined Filter TM3 ABEK1 P SL R is suitable for protection against airborne particulate (dust, mists and fumes), organic, inorganic gases or vapours, solvents, ammonia and sulphur dioxide (boiling point >65C).

IMPORTANT: When selecting a CleanSpace Filter please consult a Health and Safety specialist for advice on the appropriate respiratory equipment and filter use.

Approvals

Standards
EN 12942

Classification
PAPR-P3

Features

- Used with the revolutionary CleanSpace PAPR: light weight, no hoses or belts
- Suitable for protection against airborne particulate (dust, mists and fumes organic, inorganic gases or vapours, ammonia and sulphur dioxide (boiling point >65C)
- Materials: Fibreglass particulate media, activated carbon and plastic casing, silicone seal
- Easily fitted and removed from the power unit

Specifications and materials

- Weight: average 270g; Dimensions: 170mm x 46mm x 70mm
- Packaged Shelf life: 5 years from manufacturing date.
- These filters are not water proof and should be replaced if they come in contact with water
- Storage and Use: -10°C to +55°C (-4°F to +131°F) at <90% relative humidity. Store away from direct sunlight, grease and oil

Suitable Applications

Mining, Welding, Manufacturing, Smelting, Construction, Recycling Plants, Emergency Services, Agriculture, Processing Plants, Grinding.
Refer to Filter Selection Table for more details. <https://cleanspacetechnology.com/wp-content/uploads/2020/04/CleanSpace-Filter-Selection-Table-ROW.pdf>

Training

Online training available with verification for compliance purposes.

Limitations

CleanSpace respirators are air filtering, fan assisted positive pressure masks and designed to be worn in environments where there is sufficient oxygen to breathe safely. Do not use the CleanSpace in IDLH atmospheres, to protect against gases/vapours that cannot be filtered, or in Oxygen enriched or deficient atmospheres.
