

PROGUARD Fleece-Lined Card

Product Code	Pricing Unit	Colour	Dimensions	Pack Quantity	Pallet Quantity
PDPS15	EACH	-	1m x 50m	1	10

Product Description:

Proguard Fleece-Lined Card is an environmentally friendly single-sided fleece-laminated packaging material. The extra-soft and breathable inner lamination of cellulose-based paper fleece ensures that even particularly sensitive surfaces can be optimally protected.

Benefits:

- Eco friendly
- 100% recyclable
- Lightweight
- Breathable
- Good impact protection
- Splash resistant

Limitations:

- Limited resistance to water
- Not suitable for FR applications

Application:

Make sure your chosen surface is free from grit or loose debris. Roll out the fleece lined card over the surface, with the fleece side facing downwards. Tape joints with Proguard Tuffboard tape. Use Proguard Low Tack Tape to attach the fleece-lined card to the substrate at edges to prevent slipping.
