MIXING WITH THE BEST

PORTAMIX™

YAK

FORCED ACTION MIXER

360 Dust Control

Integrated 360° dust ring for optimized dust control when mixing.

Safety First

Trip switch stops the motor when lifting the grill lid.

Swap It Over

Interchangeable bowls – switch between 100L & 200L.

Handle with Ease

Large handles on either side of the bowl for transporting and swapping bowls

Powerful Drive

Heavy-duty, low noise mixing motor for mixing high-viscosity compounds.

Easy Roll

Rugged 6" front castors provide optimum maneuverability. Eliminating the need to tilt and push

Efficiency

Rugged bag opener for fast loading

High Capacity

100L or 200L options with interchangeable bowls

Power Up

Onboard auxiliary power outlet

Easy Cleaning

Removable bowl for fast and easy cleaning

Height Adjustable

Height-adjustable front castors to ensure safe and optimum mixing level.

Approximate relative dimensions

KEY FEATURES

- | Mixes and dispenses resin-bound materials with quiet ease and efficiency
- | Handles a wide range of construction compounds
- | Easy operation by one person
- | Reduces time, effort, and labor costs
- | Thorough mixing, blending, and dispensing without the mess
- | Dust control supplied as standard to minimize dust hazards while mixing
- | Easy-cleaning function with removable bowl

FEATURES

Easy Transport

Large, dual rubberized castors at the top of the machine allow for easy loading /unloading from truck deck.

360° Dust Control

Reduce harmful dusts to a minimum with the integrated 50mm dust port and 360°, full rim dust ring.

Powerful Drive

Low-noise motor with heavy-duty gearbox and large spindle for effortless material mixing.

Power On-board

Auxiliary power outlet for plugging in the vacuum for dust control

Safety First!

Dual safety feature with a motor trip when the lid is opened and a large emergency STOP button.

Swap & Clean

5 large bolts for fast and easy removal of the mixing bowl for cleaning or switching sizes.
