

PROGUARD EUROTRAK GROUND MAT

Product Code	Pricing Unit	Colour	Dimensions	Thickness	Pack Quantity	Pallet Quantity
PGM2	Each	BLACK	1.2M X 2.4M	15mm	1	50

Product Description:

Eurotrak ground mats are a premium ground protection mat designed to give extended service life and superior traction on the most challenging sites. They are a great option for civil engineering projects, construction sites and groundwork industry where heavier duty ground protection is needed. Due to their higher thickness and durability they are also a good option for areas with high footfall and long term projects.

These mats are manufactured from 100% recycled HDPE and have 6 hand holds to enable easy movement & offloading by two people.

Benefits:

- 100% recycled material
- non-slip surface
- Prevents environmental and property damage
- Prevents vehicles from becoming bogged
- Allows easier access in poor ground conditions
- Lower weight = lower transport & handling costs
- 100% recyclable
- 6 hand holes allows multiple manual handling options.
- Can be used in vehicle and pedestrian access situations.

Application:

Scope out the area/route you will be laying the mats on and remove any large obstacles such as protruding rocks, lay the mats next to each other over the area, if desired, connect the mats together using cable ties or connectors.

Performance Data:

Dimensions	2.4m x 1.2m
Thickness	15mm
Basic Component	100% recycled HDPE.
Max Bearing Load (tons)	50
Connecting Holes	6
Hand Holds	6
Weight (Kg)	44
