FLAME RETARDANT POLYTHENE SHEETING

Product Code	Pricing Unit	Colour	Dimensions	Thickness (Gauge)	Pack Quantity	Pallet Quantity
PTWF	Each	Opaque White	4m x 50m	300	1	20

Product Description:

Proguard flame retardant opaque polythene sheeting is used for protecting furniture during house removals, covering floors during building and decorating work, etc.

The polythene can also be used for creating temporary dust screens.

Benefits:

- 100% waterproof
- Cost effective temporary protection
- Can be used to create a temporary dust screen
- Flexible material – ideal for draping and hanging
- Lightweight multi-folded rolls
- Easily cut with a knife
- Flame Retardant to LPS1207 - Certificate Number 521/a

Limitations:

- We recommend the heavier grade rolls ie. 800/1000 gauge for heavy duty applications.
- Product may become slippery when wet. Mop up any spills immediately or replace where necessary.

Application:

Each roll is multi-folded. Simply unroll and unfold to use. Tape down any loose ends with *Proguard Low-tack PVC Tape* or *Proguard Ultra-Low Tack Tape* on sensitive surfaces.
