Description

Sentry is the perfect Covid-19 access control solution for shops, healthcare premises and offices.

Limiting the number of people inside a building is an important aspect of controlling the spread of infection. Sentry provides a professional yet simple solution that offers complete peace of mind to your customers, ensures visitor numbers are maximised and clearly shows that you are open for business.

Sentry is switched by remote control for convenience and is easy to set up and use. The panel can be used indoors or outdoors.
