

# Skipper. The total safety management solution

### A4 sign holder

Attaches to the top of Skipper units and Skipper XS units. Easily display warnings, promotions and messages.  
Product code: SIGN01

### Post & base cap

Connects to the Skipper post or cone for when a barrier is not required. Can connect directly to sign holder.  
Product code: POST05

### Skipper unit

Product code: SKIPPER01

### Skipper road cone

Revolutionary helix design deflects wind. Glass bead sleeve has 2X reflectivity of standard, prismatic reflectors.  
Product code: CONE01

### Skipper post & base system

A versatile post designed for the Skipper range of products. Can be used indoors or outdoors. Fill base with water or sand for extra stability.  
Product code: POST01 (post), POST02 (base)

### Post

Product Code: POST01

Base Code: POST02

## Skipper for external environments

Skipper is the key to a complete barrier system. As well as attaching to Skipper's own cones and posts, you can attach the durable, 9m (30ft) retractable Skipper unit to almost any standard traffic cone worldwide. The versatile and adaptable unit is used across a wide range of industries, from construction to airports and shipping, to events, retail, facilities management and so many more. Skipper is the original, market leading solution, and the choice of health and safety professionals across the world.

**Rechargeable safety light**  
LED safety light, attaches to Skipper and Skipper XS units.  
Product code: LIGHT01

**Support brackets**  
Holds the Skipper unit in place and screws to walls. Magnetic version also available.  
Product code: W/SUPPORT01 (wall version), M/SUPPORT01 (magnetic version)

**Receiver clips**  
Screws to walls to receive Skipper tape. Magnetic version available.  
Product code: W/RECEIVER01 (wall version), M/SUPPORT01 (magnetic version)

## Skipper for internal environments

The Skipper XS range of products were developed to adapt Skipper's great versatility to indoor environments such as in warehousing, manufacturing and facilities management. Featuring the full 9m (30') as the standard Skipper unit, The Skipper XS and its unique range of accessories allow for connection to any indoor surface, from high gloss and glass, to worktops, shelving, door frames and pillars, making anything possible.

**Clamp holder/receiver**  
Attaches to both vertical and horizontal surfaces.  
Product code: CLAMP01

**Cord strap clips**  
Wrap around pillars with bungee cord. Product code: CORD01 (magnetic version), CORD02 (curved version)

**Suction pad holder/receiver**  
Attaches firmly to high gloss and glass surfaces.  
Product code: PADO1

## Skipper for waste & safety management

The waste management range, like all Skipper products, is designed to be fully modular. The recycle bins, dispensers and sanitiser brackets can be used in a variety of different applications, from a free standing station to direct attachment to walls, glass and posts. They're ideally suited to a wide range of industries, from construction to facilities management, retail, warehousing and many more.

**Recycle bin**  
A fully modular recycle bin for use with Skipper products. Product code: BINO1

**Safety dispenser**  
Container designed for safety and PPE equipment.  
Product code: DISP01

**Clamp holder/receiver**  
Use in conjunction with Skipper suction pad (pad01) to attach bins and dispensers to glass.  
Product code: P/SUPPORT01

**Post & base collar**  
Attaches to the Skipper post to allow for the connection of bins/dispensers/sanitiser bracket.  
Product code: POST04

**Sanitiser bracket**  
For hand sanitisers/barrier creams. Holds standard bottles.  
Product code: SAN01
