## TROJAN CLASS ONE RANGE

### Trojan-Industrial Class One Ladder Aluminium Ladders for Industrial use

At last the heavy duty Class 1 ladder the industry has been waiting for – all the best features in one ladder.

Rectangular ‘Box’ section sides for extra strength and rigidity

Large ‘D’ shaped rungs positioned at the correct working angle for maximum comfort

All ladders are fitted with articulated non-slip feet

All extension ladders are fitted with wall running wheels

Our industrial CLASS 1 ladder range is manufactured in the UK with a pedigree to boast about. Titan have been manufacturing the highest quality industrial ladders for British trade and industrial users for more than 70 years. Featuring large comfortable D-shaped rungs, section interlock clips and solid rubber feet. Available as single, double or triple ladders, this premium range will withstand the heaviest site use and provide many years of unflinching service.

## Aluminium Lightweight Stagings

Purpose designed Stagings to provide a strong and stable platform for use in scaffolding applications.

Standard lengths from 2.44m to 7.32m in 450mm and 600mm widths

Aluminium box section stiles

Aluminium cross bearers, giving high strength to weight ratio

Specially treated hard wearing board for extended life, rubber inserts to underside to prevent movement

BS2037 certified: Supports 270kg distributed load

### Step & Ladder – Combined

Trade pattern aluminium step and ladder has wide flat treads on the front tapered section for extra stability and comfort. Versatile design makes for rapid conversion from double-sided step to straight ladder.

Construction:

- Width of serrated non-slip treads – 80mm (3 1/2")
- Locking stays on both sides and bottom tread supports
- Good rubber feet fitted all round

Ideal tradesman's product – fits in the back of a van – versatile and easy to use.

CODE NO	STEP HEIGHT	EXTENDED	WEIGHT

### Aluminium Shelf Ladder

The widest range of shelf ladders available. Combine light weight with rigidity designed for access to shelving units. For use in warehouses, stores, libraries etc.

Construction:

Width of serrated non-slip treads – 80mm

Width of top – 380mm

Good rubber feet fitted

Tapered sides for rigidity and comfort

Fitted with 600mm timber cross rail as standard, shafting hooks available on request

Handrails can be fitted to one or both sides if required

CODE NO	SIZE	LENGTH	WORKING HEIGHT	WEIGHT

### Aluminium Platform EN131 light trade step

A lightweight and robust aluminium platform step designed and manufactured with user safety our priority. Certified to EN131 for trade use.

Certified to EN131 150kg for trade use, Our Aluminium Platform Steps are available in sizes 2 to 8 tread. A lightweight and robust aluminium platform step designed and manufactured with user safety our priority.

### KEY POINTS

- Available in six sizes 3 – 8 tread.
- Secure anti slip top platform 250x250mm.
- 80mm wide anti slip treads.
- High 600mm safety rail.
- Non slip feet.
- Maximum load 150Kg.
- Supplied complete with paint can hook.
- Minimum space required for transportation and storage.
- Fitted with high tensile straps on 6 – 8 tread.

## **ALUMINIUM SCAFFOLD TOWER EN131/2 PFG1240**

New versatile scaffold tower unit specially designed for the tradesman offering flexibility and great value

### **FEATURES**

Hinged side sections

Anti-slip wood platform

Multiple height functions

Extra-long stabiliser bar with anti-slip feet for stability

Wheels fitted for mobility

Four guardrails plus toe boards

### **SPECIFICATION**

Length	1740mm
Width	660mm
Tower scaffold height	3370mm
Maximum platform height	2100mm
Weight	49kgs
Maximum Permissible load	150kg.

**Note the MS206 can only be delivered on our own transport, this may affect delivery times**

## Multi Five Way Scaffold

### ALUMINIUM LADDER SCAFFOLD

Easy adapts to use as a:

- Scaffold Platform
- Double-sided Stepladder
- Extension Ladder
- Two Single Ladders
- Stairway Ladder & Platform.

Made to European Standard EN131.

### FEATURES

- Aluminium
- Slip Resistant Rungs
- Good sized Stabiliser Feet
- Adjustable Platform Heights

### DIMENSIONS

Max Ladder Extended Height:	2.77m
Step Ladder Height:	1.63m
Length of each Ladder Section:	1.68m
Max Height of Platform:	1.0m
Length of Platform:	1.5m
Width of Stabilisers:	0.9m

## ACCESSORIES

### LOK02 RACKTITE

Strongly made, well designed clamp to secure ladders to vehicle roof racks. Special features include locking bar end stops, extra-large hook and long weighted spinner handle that tightens in seconds. The best of its kind – supplied with 2 padlocks for extra security.

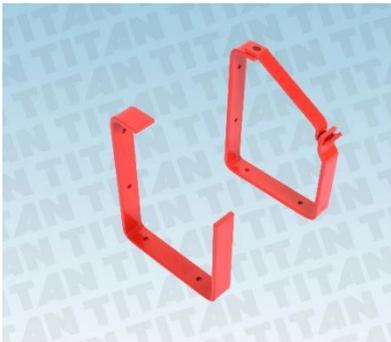

Supplied in Pairs or boxes of 5 pairs.

### LA03ER LADDER STAY

Keeps the top of the ladder 300mm from the wall for easy and safe painting, glazing and general maintenance. Aluminium with rubber protection pads, is easy to fit and suitable for all ladder.

Now with v shaped front cross bar which allows the ladder stay to rest on corners of buildings and clear downpipes.

### LA04WB LADDER WALL BRACKETS

Pair of strong steel brackets, one can be locked to ensure ladders are stored safely.

Suitable for 2 and 3 section ladders.

### LA01RH UNIVERSAL ROOF HOOK

Converts any single ladder into a roof ladder in minutes. This strongly made aluminium ridge hook assembly with rubber-tyred nylon wheels will enable you to tackle roof work safely.

### SP01RHA TITAN ROOF HOOK

The Titan roof hook has the reputation of being the best roof hook available. Its box section construction and large rubber wheels makes it one of the strongest, yet still light weight.

## SPARES

A range of spare feet are available to purchase in pairs or ladder sets. (Pairs will be bottom feet for the bottom section of the ladder)

Step ladder feet are sold in ladder sets i.e. two back and two front feet.

Spare wheels for warehouse steps and roof ladders are sold in pairs and come complete with all fixings.
