

unibank[™]
create the power

90 seconds
Pulling power

25 minutes
Talk time
on a typical
smartphone

Say hello to Unibank™

Welcome to unlimited power

Unibank™ is an international award-winning, unique pull & power charger. Simply pull the cord to charge the device, or power it via USB.

Pulling the cord for just 90 seconds can give you 25 minutes talk time on a typical smartphone.

With its 5,000 mAh battery and innovative technology, Unibank™ has the power to keep you connected, giving you unlimited power wherever you are.

- Easily generate your own power
- Can also be charged via USB
- Four optional attachments
- Range of peripherals
- Free app for iOS and Android
- High-grade components
- Environmentally friendly
- Built-in LED torch
- Input and Output 5v 2A
- LED power indicators
- Worldwide safety standards
- Never run out of power again

unibank™
create the power

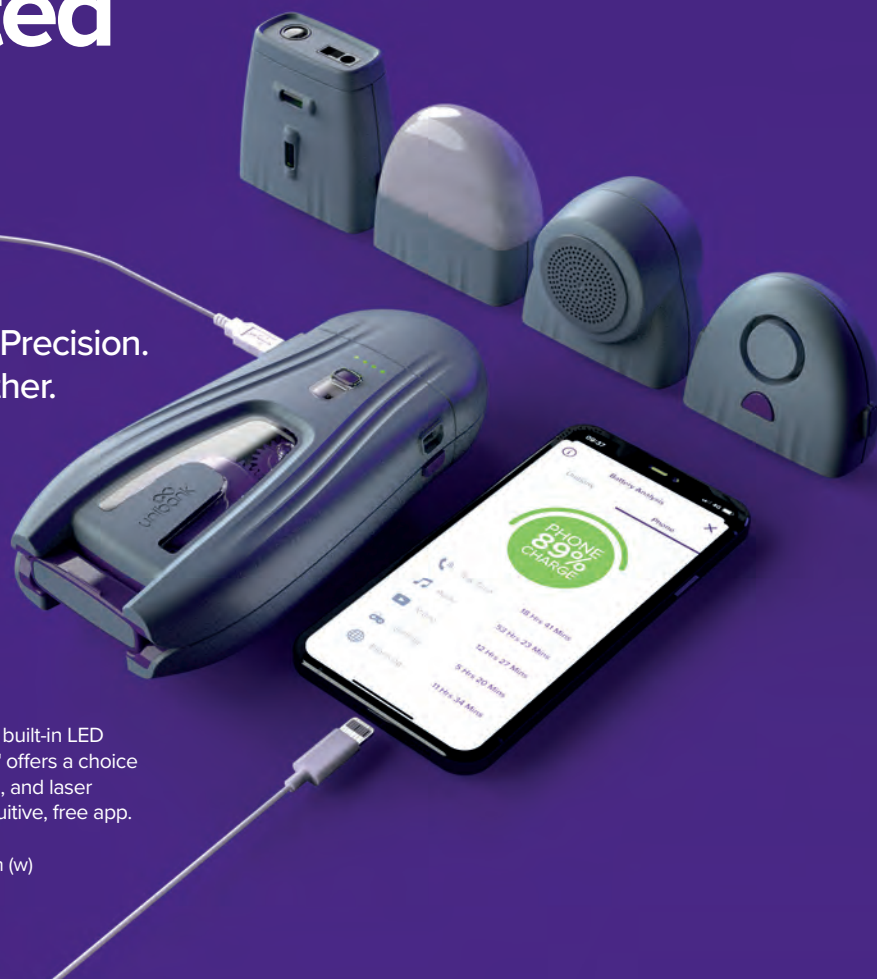

The power bank, regenerated

Power. Light. Sound. Safety. Precision.
Unibank™ pushes power further.

Powerful possibilities

The most versatile power bank yet. As well as its built-in LED torch and unique pull & power charger, Unibank™ offers a choice of portable light, Bluetooth® speaker, panic alarm, and laser measure attachments – all controlled from an intuitive, free app.

Unibank dimensions: 182mm (l) x 84mm (d) x 45mm (w)
Weight: 370.7g

Ambient light

Ambient light with many colours to suit every mood and occasion.

Bluetooth® speaker

A small but powerful speaker attachment, so you can make some noise.

Panic alarm

Unique personal safety attachment to keep your people safe and secure.

Laser line/distance measure

A compact measuring tool that delivers smarter precision, then records it.

The Unibank™ app

A free, feature-rich app that gives you total control over your attachments.

Peripherals

Protective cases and versatile clips mean you can take the power anywhere.

Create light

Brighter and more colourful wherever you are.

Take it with you

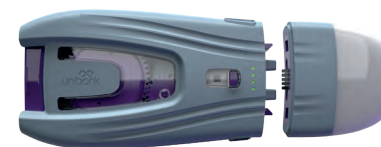

In the wilderness. At a festival. At home. Unibank's portable light attachment brightens up any occasion and never runs out of power.

Smart control

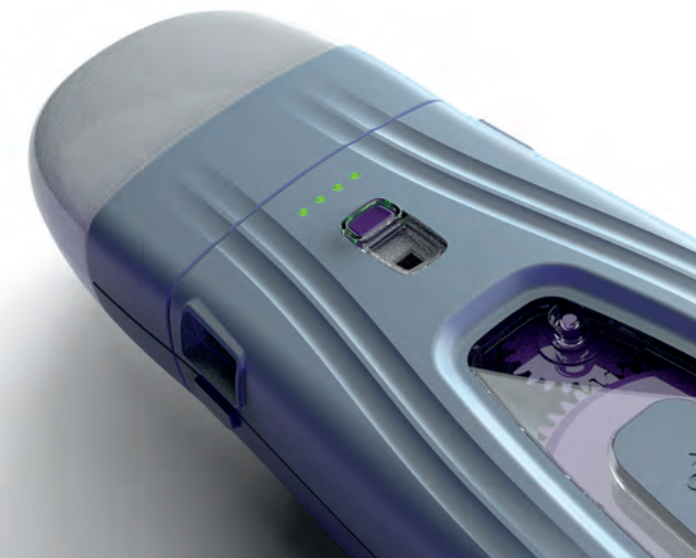

Lighten up. Colour up. Create light instantly from the free and easy-to-use Unibank™ app. Just download the app and connect the light to get started.

Many colours make light work

The ability to pick from the full colour spectrum makes it easy to change the look and feel of your surroundings. Be bright and vibrant or tone it down with a soft, white glow. The choice is yours with Unibank's colour wheel.

Dimensions: 70mm (l) x 70mm (d) x 36mm (w)
Dimensions incl. Unibank: 209mm (l) x 45mm (d) x 84mm (w)
Weight: 47.2g
Lasts up to 30 hours from full charge

Create sound

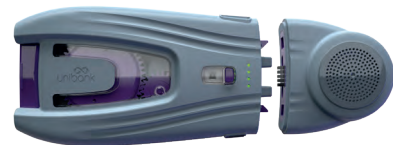

Sound that keeps going, wherever you are.

Small but mighty

Size matters when you're on the move. This compact, lightweight Bluetooth® speaker attachment achieves a big sound and keeps the party going.

With wireless speakers, battery-life is always a factor to consider, but with Unibank™ you can rest assured that you'll never run out of power.

Dimensions: 70mm (l) x 70mm (d) x 43mm (w)
Dimensions incl. Unibank: 207mm (l) x 45mm (d) x 84mm (w)
Weight: 79.4g
Up to 33 hours play time from full charge

Just plug, and play

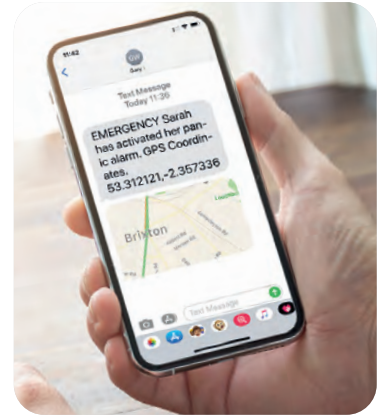

Simply attach the Unibank™ wireless speaker, pair, and you're ready to go with unlimited sound. And for an extra kick, use the Unibank™ app to enable a powerful bass boost feature.

Create safety

Create more protection and peace of mind for your people.

The power to protect

Keep yourself and your loved ones safe with Unibank's personal panic alarm attachment. Use as a loud, 120 decibel alarm or pair with your smartphone to send emergency texts to your contacts.

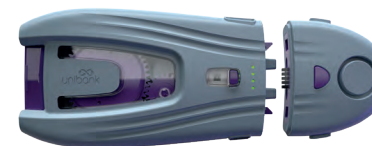

Choose a selection of contacts to receive the alert, which is triggered by a discrete press of the panic alarm's two exterior buttons.

There, highly trained officers can direct emergency services through advanced GPS tracking to the exact location in the fastest possible time – bypassing 999 call centres.

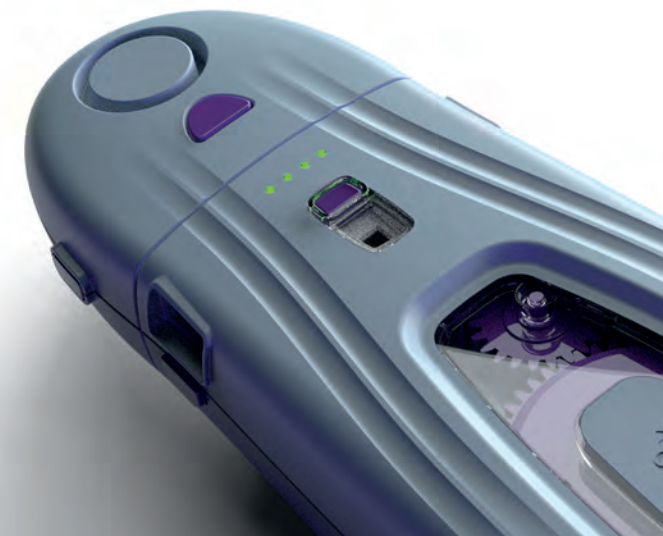

Smart safety, smart control

The free Unibank™ app allows you to set a personalised SOS message, along with your GPS coordinates.

An optional subscription service is also available which connects you to a state of the art Alarm Receiving Centre for emergency responses.

Dimensions: 65mm (l) x 72mm (d) x 36mm (w)
Dimensions incl. Unibank: 204mm (l) x 45mm (d) x 84mm (w)
Weight: 50.5g
Panic alarm decibels: 120

Create precision

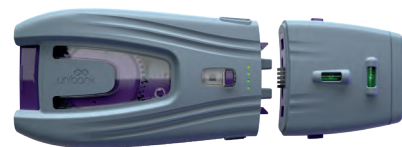

Create more precision that's smarter and goes the distance.

The only combined laser line and distance measure

Single distance. Continual measure. Volume. Area. This clever measuring tool is the first of its kind to include both a laser line and an accurate distance measure in the same device.

Use the supplied bracket to fine-tune the laser's angle. The bracket attaches to Unibank™ via its standard tripod thread – meaning you can alternatively screw Unibank™ to any universal tripod.

Dimensions: 75mm (l) x 72mm (d) x 36mm (w)
Dimensions incl. Unibank: 212mm (l) x 45mm (d) x 84mm (w)
Weight: 102g
Measure accuracy: +/- 3mm. Measure max distance: 20m
Laser line class: 2 / Laser measure class: 3a

Simple setup, smart control

The Unibank™ app seamlessly sets up your device, lets you store and categorise measurements, send them via email and more.

Take control with the app

The Unibank™ app is available from Google Play and the App Store, allowing you to take control of your power bank and attachments.

Battery level indicators

The Unibank™ app seamlessly connects to your smartphone via Bluetooth®. The app shows an in-depth analysis of both the Unibank's and the smartphone's charge levels, including estimated battery life available under various conditions such as web browsing, gaming, listening to music or watching videos.

Intuitive, feature-rich, free

The Unibank™ app is the hub for controlling all your attachments.

Laser line & distance measure attachment

The Unibank™ app captures and stores measurements from the laser measuring device. Measurements can be triggered either from the device itself or from the app.

Taking two measurements automatically calculates area while taking three measurements calculates volume. Use the app to easily name, rename, and group your measurements. The app can even send your data as a spreadsheet via email.

Ambient light attachment

The app utilises an intuitive colour wheel and brightness slider to allow you to pick any colour from the spectrum.

Colours can be saved by simply pressing the '+' icon. The ambient light can also be toggled on and off from the app.

Panic alarm attachment

As well as a powerful 120db siren, the Unibank™ panic alarm takes safety to the next level by sending an SOS message to your emergency contacts. Create a personalised SMS message from the app and then choose from your contacts who should receive it in the case of an emergency – along with your GPS coordinates.

Take protection even further with an optional subscription service to elevate your alarm to a 24/7 emergency Alarm Receiving Centre, where trained professionals will take decisive action.

Peripherals

Body clip & arm strap

This dual-use accessory allows you to clip Unibank™ to things like utility belts and bags, or attach it to your arm with the included strap – ideal for when you're on-site or on the move.

The clip simply screws to the base of the Unibank™ power bank.

Protective silicone jacket

For straightforward protection against bumps, scratches, and accidental drops. This official case is precisely engineered to encase the Unibank™ power bank while allowing easy access to its pull cord, underside panel, and attachments.

The soft-touch silicone over-moulded pads add non-slip protection and improved grip.
