

The New  
RL-VH4DR

**NEW**

MULTI PURPOSE ROTATING LASER

# RL-VH4DR

Fully featured professional laser  
for Interior and Civil Engineering

Protection cover for outdoor use

Smart scan beam control

Slope matching feature

Laser auto plumb down positioning

New long range Radio remote control

IP54 Environment resistance

**It's time.**

# Fully featured professional laser for Interior and Civil Engineering

**Ideal for all  
building  
construction  
Jobs**

Market demand for using Visible interior rotating laser outside is a necessity for current building construction market such as setting wall alignment and parking lot slopes.

**Interior  
use**

**Exterior  
use**

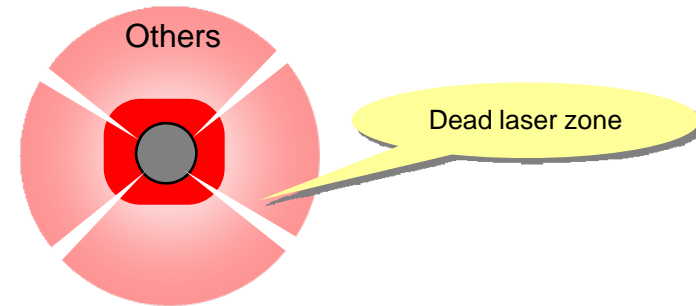

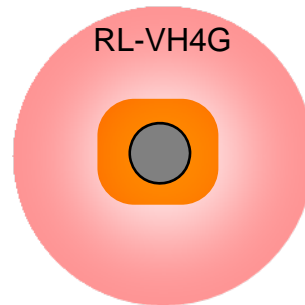

**RL-VH4DR can be used for both Interior and Exterior  
application with upgraded Environment resistance**

**It's time.**

# New Head Protector and Remote Control

**Removable protect cover giving access to the head!**

**And eliminating dead laser zone while keeping toughness!**

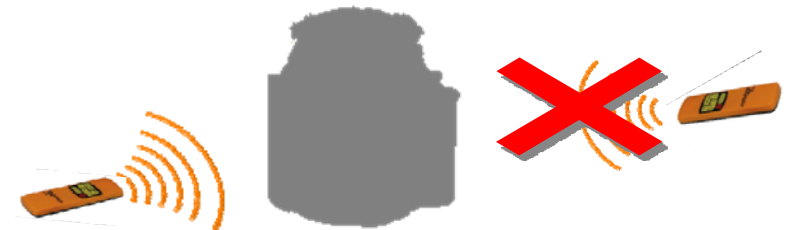

**Radio remote control is standard equipment!**

**LONG RANGE 200M** Omni-directional radio remote control

**No need to point the remote at the laser!**  
**Controlling from all directions!!**  
**No glitch under the fluorescent lights!!!**

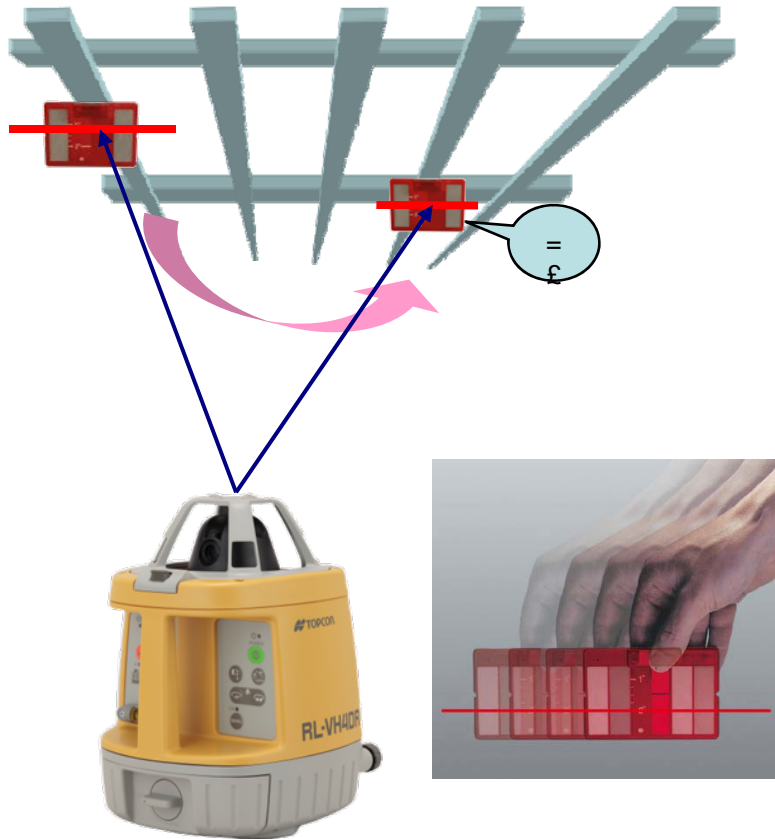

**IR remote-controller wouldn't work if it is not turned to the sensor window on the laser.**

**Possibility with glitch under the fluorescent lights.**

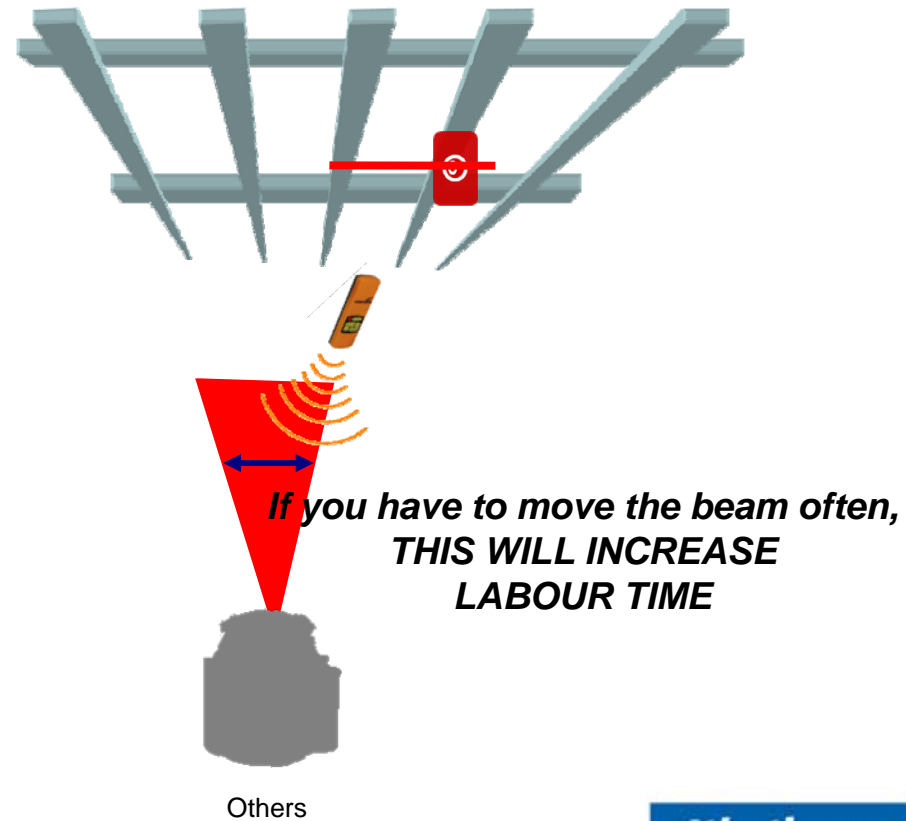

**It's time.**

**Auto Target Scan Function! Easy, Convenient Smart Scan!**

Once caught with the target, you can draw the line anywhere you want !

You must move to the scanning area with the remote control !

## The Slope setting can be by Easy Operation

### Slope control function

You can set slope by using RC-40 remote control.

It will automatically start and can be precisely aligned with the remote control and laser sensor for outside applications

Slope setting range :  $\pm 5^\circ$

## vertical use made easy

### Plumb down beam function

Easy setting for Vertical operation.

Plumb down laser for precise positioning

### Vertical line alignment control

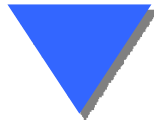

#### ( Vertical alignment function )

You can align laser beam vertically using the remote control and laser sensor.

alignment setting range :  $\pm 5^\circ$

# New RL-VH Series Line up

Old line up	RL-VH4G	RL-VH3A	RL-VH3B	RL-VH3DR	RL-VH3D	RC-30
