

EN 341 Class C

CE

Rescue descent device for evacuation of personnel from heights.

Rescue descent device MK II can be used for rescue operations at heights when:

- an accident at work occurred and patient is not able to descend from a height on its own;
- a fall has been arrested by fall protection equipment and patient is far away from structural anchor points.

The MK II device is offered as a kit comprising:

- descending device,
- rescue rope, dia 11mm,
- webbing sling - AZ 900 30,
- three connectors,
- cargo bag,
- knife.
