

A firefighter in full protective gear, including a helmet and oxygen tank, is shown from the side, holding a hose. The background is a dark, smoky environment with sparks and light reflecting off the firefighter's gear.

# evolution

A large circular inset image showing a firefighter in full gear fighting a massive fire. A bright red flame icon is superimposed over the center of the fire. The text 'FIREFAST' is written in large, bold letters, with 'FIRE' in red and 'FAST' in black. Below it, '120 MINUTES' is written in smaller black letters. A registered trademark symbol (®) is to the right of the word 'FAST'.

**FIREFAST**<sup>®</sup>  
120 MINUTES

Evolution are proud to present our  
**FIREFAST<sup>®</sup>** range of fire tested  
fasteners.

THE IMPORTANCE OF FIRE RESISTANCE TESTING

# FIRE SAFETY

## Why Is This Important?

FIRE COSTS LIVES AND CAUSES DEVESTATION.  
OUR FIRE TESTED FASTENERS CONTRIBUTE TO RESIST, RETARD OR EXTINGUISH  
IN THE UNFORTUNATE EVENT A FIRE TAKES PLACE.

### *INDEPENDENT TESTING*

Proves performance and compliance against regulations. Determining the suitability of our products for buyers and installers.

### *2-HOUR FIRE TEST*

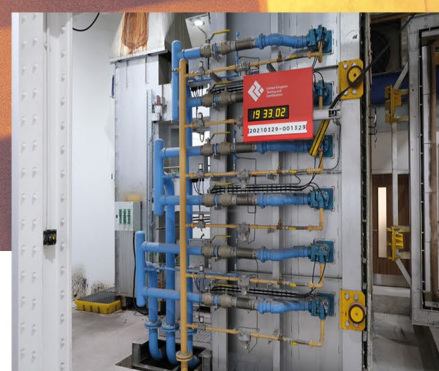

Our 2-hour fire test which takes place across various products in our range, gives us and those who employ these products the assurance that quality standards will be met.

### *PRODUCT DEVELOPMENT*

In response to evolving regulations that the construction industry are required to uphold, we continue to review and develop our safety standards for our products which gives our clients peace of mind in their purchasing decision.

## 2-Hour Fire Test:

Evolution instructed UKTC (United Kingdom Testing and Certification) who are a UKAS (United Kingdom Accreditation Service) accredited fire testing laboratory based in East Kilbride, Scotland to conduct fire tests on the entire Evolution product range for two-hour ratings in tests conducted in accordance with BS EN 1364-1.

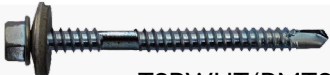

# OUR PRODUCTS THAT ARE NOW

0200  
HOURS MINS

**FIRE RESISTANT**

	PRODUCTS	BS EN 1364-1	
MASONRY FXINGS	 A4HH & A4CSK	2 HOUR FIRE TEST 	PASSED
	 MSHH & MSCSK	2 HOUR FIRE TEST 	PASSED
INSULATION FXINGS	 A4IS/IS	2 HOUR FIRE TEST 	PASSED
DRYWALL FXINGS	 EVUCD & DWSDE	2 HOUR FIRE TEST 	PASSED
	 WHX & WHL	2 HOUR FIRE TEST 	PASSED
METAL FRAMING	 BMTSPH & TSPH	2 HOUR FIRE TEST 	PASSED
	 BMTSLP & TSLP	2 HOUR FIRE TEST 	PASSED
TIMBER FXINGS	 BMWD/A4WD	2 HOUR FIRE TEST 	PASSED
	 TSTF	2 HOUR FIRE TEST 	PASSED
HEX HEAD FXINGS	 TSBW/TSHW	2 HOUR FIRE TEST 	PASSED
	 TSBWHT/BMTSBWHT	2 HOUR FIRE TEST 	PASSED
STRESS PLATES	 SPR/SSSPR	2 HOUR FIRE TEST 	PASSED
