

ML Series

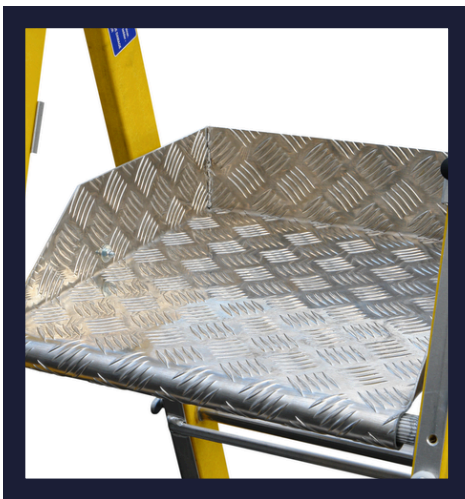

Work safely and efficiently with the MultiLyte Glassfibre Telescopic Platform, a non-conductive podium stepladder designed for professionals in the electrical industry who require a reliable, portable platform that prioritises safety

Key Benefits

- **Non-Conductive Design:** Ideal for electrical work, ensuring safety in high-risk environments.
- **Telescopic Design:** One-person operation enables adjustable height, providing flexibility for various tasks.
- **Certified Safety:** Certified to EN131-7 standards, offering peace of mind and reliability.
- **Secure Workspace:** Features an enclosed platform with a locking gate for stable, secure operation.
- **Compact and Portable:** Platform and gate fold down easily for convenient storage and transport.
- **Easy Mobility:** Integrated wheels allow for effortless manoeuvrability on site.

Available in 4 sizes

Specifications

Code	No. of Rungs Per Section	Weight kg	Closed Height mm	Open Height mm	Platform Height (Position 1) mm	Approx. Working Height (Platform Position 1) mm	Platform Height (Position 2) mm	Approx. Working Height (Platform Position 2) mm
ML46GF	4&6	30.0	2150	2670	1100	2850	1620	3370
ML58GF	5&8	33.0	2310	3190	1360	3110	2140	3890
ML69GF	6&9	37.0	2690	3410	1640	3390	2360	4110
ML711GF	7&11	44.0	2930	4000	1880	3630	2950	4700

*Where applicable, the Approx. Working Height is calculated by adding 1750mm (5'8") to the Platform Height.
