

# MAKBLADE PLUS FOR STATIONARY SAWS

## B-09824

The Makblade Plus saw blades for Mitre and Table saws have unique patented technology. Developed to dampen vibration and be super quiet these blades' features enhance the work environment and improve both durability of the saw blade and equipment reliability. A lower vibrating blade produces greater cut accuracy, and also reduces wobble, giving a beautiful cut surface. This also significantly extends the life of the tungsten carbide teeth beyond that of conventional carbide tipped saw blades.
