

AUTOFEED SCREWDRIVER BIT

P-66254

AUTOFEED SCREWDRIVER BIT

TECHNICAL SPECIFICATIONS

Model	6834
Screw Head	PH2
Diameter (D)	5 mm
Overall Length	141 mm
Pack Quantity	10

USER BENEFITS

- 5mm diameter Phillips 2 bit designed for smooth operation in autofeed screwdriver. Minimizes screw jamming by precise application. Also a very useful long length bit for use with impact drivers
- Symmetrical head-geometry with centring-tip for optimised results in the event of reinforcement.
- Application: Drywalling, plasterboard, screwdriving, decking, drylining
- Features: Made in Europe to Makita's high quality standard using special S2 alloyed steel and a state-of-the-art heat treatment process and straightening process.
- 5mm diameter Phillips 2 bit designed for smooth operation in autofeed screwdriver
