

POWDER-FREE DISPOSABLE NITRILE GLOVES, 5G

MODEL NO: SSP60L, SSP60XL

Thank you for purchasing a Sealey product. Manufactured to a high standard, this product will, if used according to these instructions, and properly maintained, give you years of trouble free performance.

IMPORTANT: PLEASE READ THESE INSTRUCTIONS CAREFULLY. NOTE THE SAFE OPERATIONAL REQUIREMENTS, WARNINGS & CAUTIONS. USE THE PRODUCT CORRECTLY AND WITH CARE FOR THE PURPOSE FOR WHICH IT IS INTENDED. FAILURE TO DO SO MAY CAUSE DAMAGE AND/OR PERSONAL INJURY AND WILL INVALIDATE THE WARRANTY. KEEP THESE INSTRUCTIONS SAFE FOR FUTURE USE.

1. INTRODUCTION

Extra thick nitrile for heavy-duty protection, ideal for automotive and industrial applications. Ideal for people with latex protein allergies. Chemical resistant. Powder-free for those with relevant dermatological conditions. Ambidextrous, conveniently fits either hand. 100 pcs per box. Certified to EN ISO 374-1:2016+A1:2018; EN ISO 374-5:2016; EN ISO 21420:2020.

2. SAFETY

- ✗ **DO NOT** reuse or wash single-use or exam gloves.
- ✗ **DO NOT** use damaged or visibly soiled or damaged gloves.
- ✗ **DO NOT** touch your face while wearing gloves.
- ✓ Wash hands with soap and water for at least 20 seconds and dry thoroughly before putting gloves on and after taking them off.
- ✓ Wear properly fitting gloves with a close fit around fingers and wrist to reduce risk of exposure.
- ✓ The glove contains natural rubber which may cause allergic reactions
- ✓ This information does not reflect the actual duration of protection in the workplace and the differentiation between mixtures and pure chemicals.
- ✓ The chemical resistance has been assessed under laboratory conditions from samples taken from the palm only (except in cases where the glove is equal to or over 400 mm - where the cuff is tested also) and relates only to the chemical tested. It can be different if the chemical is used in a mixture.
- ✓ It is recommended to check that the gloves are suitable for the intended use because the conditions at the workplace may differ from the type test depending on temperature, abrasion and degradation.
- ✓ When used, protective gloves may provide less resistance to the dangerous chemical due to changes in physical properties. Movements, snagging, rubbing, degradation caused by the chemical contact etc. may reduce the actual use time significantly. For corrosive chemicals, degradation can be the most important factor to consider in selection of chemical resistant gloves.
- ✓ Before usage, inspect the gloves for any defect or imperfections.
- ✓ The gloves are offering protection against micro-organisms and comply to the test requirements.
- ✓ The penetration resistance has been assessed under laboratory conditions and related only to the test specimen.

3. SPECIFICATION

SSP60L / SSP60XL

Conforms to specifications EN ISO 374-1:2016+A1:2018; EN ISO 374-5:2016; EN ISO 21420:2020.

Notified Body: No.2777

Certificate number: 2777/18245-01/E00-00

Carried out by SATRA

4. APPLICATIONS

- 4.1. Protective gloves for use against dangerous chemicals, micro-organisms, bacteria, fungi and viruses.

Classification:		
EN ISO 374-1: 2016+ A1 2018/Type C	Level	EN 374-4: 2019 Degradation %
40% Sodium hydroxide (K)	6	-10.9
30% Hydrogen peroxide (P)	1	11.5
37% Formaldehyde (T)	5	4.2
EN ISO 374-5: 2016		Result
Protection against bacteria and fungi	Pass	
Protection against viruses	Pass	

5. MAINTENANCE

- 5.1. Store in a bag or case out of direct sunlight, away from chemicals and abrasive substances, in a clean dust free environment.
5.2. Use original box/bag for storage and transportation.

6. OBSOLESCENCE

- 6.1. Like all protective products, the product life and level of service depend on the type of use, care and maintenance applied.
6.2. Store in original packaging, out of direct sunlight, away from chemicals and abrasive substances and under ordinary temperature and humidity conditions.

This document has been drawn up according to Regulation (EU) 2016/425 as amended to apply to GB for Personal Protective Equipment. The declaration of conformity can be accessed at www.sealey.co.uk.

ENVIRONMENT PROTECTION

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain any fluids (if applicable) into approved containers and dispose of the product and fluids according to local regulations.
