

Provide added strength and stability.

FEATURES

Installation

- All metal components used in any particular application must be of the same material type.
- Gloves should be worn to protect hands from sharp metal edges.
- Position the mesh within the masonry bed joints, providing a minimum of 25 mm cover to external faces.
- Overlap by a minimum of 75 mm if joining two lengths together. The mesh can be laid every third brickwork course for most reinforcement.
