

Technical Specification

Features

Stratec® Grass Reinforcement Mesh is manufactured from HDPE and is a tough but flexible polymer grid that permanently reinforces grassed areas preventing them from rutting. Ideal for light vehicles and pedestrian grassy areas such as car parks, grass verges, wheelchair use and many more similar applications.

Benefits

The Stratec range includes woven geotextile, geogrids, impermeable membranes, erosion control products and other geo-products for use in external works.

Supply

Stratec products are mostly available for direct delivery to site or yard via our bulk distribution warehouse.

Typical Specification

"Where directed all areas must be covered with Stratec Standard Grass reinforcement mesh." The material must be installed in accordance with the manufacturers guidelines.

Specification			
Grade	Unit	Standard	Premium
Product Code	-	251008	251009
Raw Material	-	HDPE	HDPE
Mesh Size	mm	25 x 25	25 x 25
Thickness	mm	4	4
Weight	gsm	460	650
UV Stabilised	-	Yes	Yes
Roll Length	m	30	30
Roll Width	m	2	2
Colour	-	Green or Black	Green or Black
Covered Area	sqm	60	60
